ACKNOWLEDGMENTS

The Ministry of Environment, Lands and Parks wishes to acknowledge three partners whose contributions were invaluable in the completion of the *Aboriginal Water Rights Report Series:*

> The Ministry of Aboriginal Affairs, was a critical source of funding, support and direction for this project.
>
> The U-Vic Geography Co-op Program, was instrumental in providing the staffing resources needed to undertake this challenging task. Through the services of June Whitmore and her office, the project benefited from the research, writing, editing and co-ordination of these outstanding students:
>
> Jas Gill
> Julie Steinhauer
> Kelly Babcock
> Daniella Mogus
> Miranda Griffith
> Christina Rocha
> Rachel Abrams
> Elizabeth Lee
> Sara Cheevers
>
> The services of Clover Point Cartographics Limited of Victoria, was responsible for the preparation of most of the map drawings, which form a valuable part of these documents.

In addition to these three key partners, I must acknowledge the valuable contributions of other Water Management staff, past and present, including Jack Farrell, Jim Mattison, Richard Penner, Diana Jolly, Greg Blaney, Gary Lucas and Kim Johnston.

The sheer numbers of First Nations groups' with histories of water rights made the completion of the Report Series seem, at times, prolonged. The determination, patience and vision of the partners was essential in the completion of the Series and is gratefully acknowledged.

LOCATION:

The Kamloops Band occupies 5 separate reserves in the Interior Plateau, near Kamloops.

The five reserves are:

¥ Kamloops 1 - a 13227.2 hectare reserve located at the confluence of South and North Thompson Rivers, in the northern Kamloops area.
¥ Kamloops 2 - a 6 hectare reserve located at the north end of Trapp Lake, south of Kamloops.
¥ Kamloops 3 - a 3 hectare reserve located along the west shore of Trapp Lake, south of Kamloops Reserve No. 2.
¥ Kamloops 4 - a 72.8 hectare reserve located on the right bank of the North Thompson River, about 24 miles north of Kamloops.
¥ Kamloops 5 - a 18.6 hectare reserve located on the north shore of Heffley Lake, northeast of Kamloops.

The Kamloops Band also holds one reserve in common with the Bonaparte Indian Band. This reserve is:

¥ Hihium Lake 6 - a 31.8 hectare reserve located at the west end of Hihium Lake.

Within the Interior Plateau, these reserves sit at elevations ranging from 1,200 to 4,000 feet above mean sea level, and experience climate ranging from an average daily temperature of -5 to -10 degrees centigrade in January and 16 to 20 degrees centigrade in July. The average annual rainfall for this area is 30 - 50 centimetres.

The most recent population figures from the Ministry of Finance show Kamloops Band to have a population of 495 persons living on-reserve as registered members. It's total population, including registered and non-registered members living on-reserve, on crown land and off-reserve is 846.

Water courses of significance include:

¥ Charles Lee Creek, which flows south, through the eastern portion of Kamloops #1, and drains into Cold Creek.

¥ Cold Creek, which flows south, through the eastern portion of Kamloops #1, and drains into Paul Creek.

¥ Jules Spring, which is located in the western portion of Kamloops #1, north of Paul Creek.

¥ Lloyd Creek, which flows southwest, along the western arm of Kamloops #1 and drains into Paul Creek.

¥ Maurice Creek, which is located northeast of Paul Lake.

¥ North Thompson River, which flows south, along Kamloops #1, and drains into the Thompson River.

¥ Page Spring, which is located in the western portion of Kamloops #1, near Paul Creek.

¥ Paul Creek, which flows southwest, bisecting Kamloops #1, and drains into North Thompson River.

¥ Paul Lake, which borders the part of the eastern arm of Kamloops #1.

¥ Robert Spring, which is located in the western portion of Kamloops #1, north of Paul Creek.

¥ South Thompson River, which flows west, along the southern border of Kamloops #1, and meets with the North Thompson River to form the Thompson River.

¥ Welch Brook, which flows south, through the northeastern portion of Kamloops #1, and drains into Paul Creek.

WATER ALLOCATIONS:

There is no record of any allocations made by an Order in Council of the Lieutenant Governor in Council with respect to the Kamloops Band.

However, Water Rights of the Kamloops Band have been recorded or affected by four actions of government over the years:

1) Allotments by the Indian Reserve Commissioners.

Following confederation, the Province and the Dominion established an Indian Reserve Commission to reserve lands for the Indians and for transfer of those lands to the Dominion. In setting apart lands for reserves, the Reserve Commissioners made it their practice to allot water with lands. It is understood that this practice was unique among Indian Reserves in Canada and the authority of the Commissioners to allot water rights has always been disputed by the Province.

2) Determinations of the Board of Investigation under the *Water Act, 1914* of claims of the Department of Indian Affairs, and subsequent issue of water licences.

3) Granting of water licences from Federal Government applications for licences for the use of water on reserve.

4) Actions to amend rights under licences pursuant to provisions in the *Water Act.*

HISTORY, CURRENT STATUS, AND NOTES:

No indication has ever been made of any water licences having been granted to the Kamloops Band with respect to Kamloops Reserves #2, #3, #4 or #5. In addition, no evidence is available to indicate that any allocation of water rights to Kamloops Reserves #2, #3 and #5 have ever been intended. Under additional water records in the Other Information Section there is reference to a water record relating to Kamloops Reserve #4. However, this record can not be located.

The history of water rights, the current status of rights and notes for the Kamloops Band with respect to the water sources on Kamloops #1 are as follows:

KAMLOOPS #1

Cold Creek

History:

July 27, 1877 Minute of Decision of the Indian Reserve Commission, constituting Kamloops Reserve No. 1:

> *"The prior right of the Indians as the oldest owners or occupiers of the soil to all the water which they require or may require for irrigation and other purposes from St. Pauls Creek* and its sources and northern tributary."*

*Note: It is assumed that St. Pauls Creek is now referred to as Paul Creek. Cold Creek is a tributary to Paul Creek.

Nov 20, 1934 The Comptroller of Water Rights issued Conditional Water Licence 12284 to the Superintendent-General of Indian Affairs in accordance with their application. This licence was given a date of precedence of April 13, 1933 and authorized the diversion of 400 acres of water a year from Cold Creek for the irrigation of 200 acres of the Northeast portion of Kamloops Indian Reserve No. 1, provided that of this quantity 2,000 gallons of water a day may be used for domestic purpose.

The Superintendent-General of Indian Affairs had applied for the right to divert 625 acre feet of water a year from Cold Creek; however, Conditional Water Licence 12284 was issued for a lesser quantity as being sufficient for the area to be irrigated. At the time of the issue of Conditional Water Licence 12284 another third party's application on Cold Creek was refused, as it was felt the creek was fully appropriated.

Upon reviewing current water rights maps it appears that two of the points of diversion authorized under Conditional Water Licence 12284 may have been on Charles Lee Creek instead of Cold Creek.

Aug 10, 1937 The Comptroller of Water Rights refused a request that a Final Water Licence be issued authorizing the use of water from Cold Creek in any part of the Reserve. The Comptroller of Water Rights stated that it seemed impractical to consider the irrigation of portions of the reserve which were far away from Cold Creek.

Jan 15, 1940 The Comptroller of Water Rights issued Final Water Licence 10838 to the Director of Indian Affairs. This licence, issued in substitution of Conditional Water Licence 12284, was given a date of precedence of April 13, 1933, and authorized the diversion of 8.75 acre feet of water a year from Cold Creek for the irrigation of 3.5 acres of the North East portion of Kamloops Indian Reserve No. 1.

A lesser quantity of water was authorized with the issue of Final Water Licence 10838 as being sufficient for the area to be irrigated.

The Engineer's Report indicated that water from Cold Creek was not being used for domestic purpose. Thus, Final Water Licence 10838 was issued without incidental domestic purpose.

Final Water Licence 10838 only authorizes the diversion of water from one point on Cold Creek. The two other points of diversion previously authorized under Conditional Water Licence 12284 (which appeared to be on Charles Lee Creek and not Cold Creek), were eliminated with the issue of Final Water Licence 10838.

Current Status:

There are a total of 9 active licences and 3 applications on Cold Creek. Of the licences:

¥ Five authorize the diversion of water for irrigation purpose, with a total quantity authorized of 78.75 acre feet per annum.
¥ Four authorize the storage of water, for a total quantity authorized of 24 acre feet per annum.

Of the applications:

¥ All three are for irrigation purposes, for a total quantity applied for of 166 acre feet per annum.
¥ Two are for small quantities of water for stock watering purposes.
¥ Two also are for storage purposes, for a total quantity applied for of 126 acre feet per annum.

Final Water Licence 10838, in the name of the Kamloops Band, is first in priority on Cold Creek. An Engineer's letter dated October 20, 1970, reported that a ground inspection of Final Water Licence 10838 showed a complete absence of any intake or ditch and no evidence of any irrigation within the general area of the authorized point of diversion. There is no recent information on file to indicate the current exercise of rights under this licence.

Although there is information on file to indicate Cold Creek was recorded as fully apportioned on June 27, 1933, the Water Licensing Information System reports no water shortages on Cold Creek.

Water Survey of Canada reported streamflow records on Station 08LB058, Cold Creek near Kamloops, from 1933 to 1935. These streamflow records reported a low mean monthly flow of 0.005 cubic metres per second in August, increasing to a high in May of 0.048 cubic metres per second.

There are a total of four licences and one application on Charles Lee Creek, a tributary of Cold Creek. The plat accompanying Conditional Water Licence 12284 shows Charles Lee Creek as a possible additional source for the licence. Currently, there are no licences for the benefit of the Kamloops Band on Charles Lee Creek.

Notes:

1. The allocation of water from Cold Creek, made by the Indian Reserve Commission, with respect to the Kamloops Indian Band, has been recognized by the Province, in that the Band does have first rights on Cold Creek.
2. The issue of Final Water Licence 10838 resulted in the loss of licensed irrigation rights for the Band on Cold Creek.
3. The issue of Final Water Licence 10838 resulted in the loss of incidental domestic rights on Cold Creek.
4. Conditional Water Licence 12284 may have authorized the diversion of water from Charles Lee Creek.
5. If the Kamloops Band is not using the water from Cold Creek, the licence could be cancelled for non-beneficial use.

Jules Spring

History:

Dec 1, 1996	The Comptroller of Water Rights issued Conditional Water Licence 31637 to the Director, Indian Affairs Branch in accordance with their application. This licence was given a date of precedence of May 14, 1963, and authorized the diversion of 2,500 gallons a day from Jules Spring for domestic purpose on Kamloops Indian Reserve No. 1.

Current Status:

Conditional Water Licence 31637, in the name of the Kamloops Band, is the only licence on Jules Spring. There is no recent information on file with respect to the exercise of rights under this licence.

Notes:

1. Under current licensing practices Conditional Water Licence 31637 would be issued for waterworks purposes. The amendment of this licence would allow for the designation of the Jules Spring drainage area as a Community Watershed under the Forest Practices Code.

Lloyd Creek

History:

July 27, 1877 Minute of Decision of the Indian Reserve Commission, constituting Kamloops Reserve No. 1:

> *"The prior right of the Indians as the oldest owners or occupiers of the soil to all the water which they require or may require for irrigation and other purposes from St. Pauls Creek* and its sources and northern tributary."*

*Note: Lloyd Creek is a tributary of Paul Creek.

Jan 4, 1960 The Comptroller of Water Rights issued Conditional Water Licence 25366 to the Director of Indian Affairs in accordance with an application filed by the same office. This licence was given a date of precedence of May 26, 1959, and authorized the diversion of 75 acre feet of water a year from Lloyd Creek for the irrigation of 30 acres of Kamloops Indian Reserve No. 1, Kamloops Division of Yale District.

Indian Affairs had originally applied for the right to divert 90 acre feet per annum from Lloyd Creek; however, a lesser quantity was authorized with the issue of Conditional Water Licence 25366 as being sufficient for the area to be irrigated.

July 2, 1964 The Comptroller of Water Rights issued Final Water Licence 18461 to the Director of Indian Affairs. This licence, issued in substitution of Conditional Water Licence 25366, was given a date of precedence of May 26, 1959, and authorized the diversion of 38.8 acre feet of water a year from Lloyd Creek for the irrigation of 15.5 acres of Kamloops Indian Reserve No. 1, Kamloops Division of Yale District.

A lesser quantity was authorized with the issue of Final Water Licence 18461 as being sufficient for the area to be irrigated.

Current Status:

There are a total of four licences and one application on Lloyd Creek. Of these licences:

¥ three authorize the diversion of water for irrigation purpose, for a total quantity authorized of 113.3 acre feet per annum.
¥ one authorizes the diversion of 1,000 gallons a day for domestic purpose.
¥ one authorizes the storage of 30 acre feet per annum.

The application on Lloyd Creek is for the right to divert 20 acre feet per annum for irrigation purpose.

Final Water Licence 18461, in the name of the Kamloops Band, is second in priority on Lloyd Creek. The other three licences and the application on Lloyd Creek are in the name of Lloyd Creek Ranches Ltd. Water Management was notified by Lloyd Creek Ranches Ltd. on May 22, 1990 that the Kamloops Band has not used water from Lloyd Creek for many years. Besides Lloyd Creek Ranches Ltd. notification, there is nothing on file to indicate the current exercise of rights under Final Water Licence 18461.

On December 18, 1981, Paul Creek watershed above Paul Lake, which includes Lloyd Creek, was noted as fully recorded for all purposes including storage.

Notes:

1. The allocation of water from Lloyd Creek, made by the Indian Reserve Commission, with respect to the Kamloops Band, has not been formally recognized by the Province.
2. The issue of Final Water 18461 resulted in the loss of licensed irrigation rights for the Kamloops Band on Lloyd Creek.
3. If the Kamloops Band is not using the water authorized under Final Water Licence 18461, the licence could be cancelled for non-beneficial use.
4. As the Paul Creek watershed is fully recorded it may be difficult for the Kamloops Band to obtain additional licensed rights on Lloyd Creek.

Maurice Creek

History

Nov 2, 1964	The Comptroller of Water Rights issued Final Water Licence 18618 to the Director of Indian Affairs in accordance with an application filed by the same office. This licence was given a date of precedence of May 22, 1964, and authorized the diversion of 46.3 acre feet of water a year from Maurice Creek for the irrigation of 18.5 acres of Kamloops Indian Reserve No. 1.

Current Status:

Final Water Licence 18618, in the name of the Kamloops Band, is the only licence on Maurice Creek. There is no recent information on file with respect to the exercise of rights under this licence.

Notes:

1. There is no additional information with respect to the water rights of the Kamloops Band on Maurice Creek.

North Thompson River

History:

Nov 15, 1927 The Comptroller of Water Rights issued Conditional Water Licence 9325 to the Superintendent General of Indian Affairs in accordance with their application. This licence was given a date of precedence of May 10, 1926, and authorized the diversion of 2361 acre feet of water a year from North Thompson River for the irrigation of 787 acres of part of Kamloops Indian Reserve No. 1, situated between the Kamloops Road and North Thompson River, provided that of this quantity 10,000 gallons a day may be used throughout the whole year for domestic purpose.

Indian Affairs had originally applied for the right to use 2,750 acre feet per annum; however, a lesser quantity was authorized with the issue of Conditional Water Licence 9325 as being sufficient for the area to be irrigated.

Nov 15, 1941 The Comptroller of Water Rights issued Final Water Licence 11510 to the Director of Indian Affairs. This licence, issued in substitution of Conditional Water Licence 9325, was given a date of precedence of May 10, 1926, and authorized the diversion of 328.75 acre feet of water a year from North Thompson River for the irrigation of 131.5 acres of the portion of Kamloops Indian Reserve No. 1 situated between the Kamloops Road and the C.N.R. Right-of-Way.

A lesser quantity of water was authorized with the issue of Final Water Licence 11510 as being sufficient for the area to be irrigated. There is nothing on file to indicate why incidental domestic was not included as an additional purpose.

June 3, 1968 The Comptroller of Water Rights issued Conditional Water Licence 33300 to the Superintendent General of Indian Affairs in accordance with an application filed by Gordon Bried, a lease holder on the Reserve. This licence was given a date of precedence of May 27, 1966, and authorized the diversion of 900 acre feet of water a year from North Thompson River for the irrigation of 300 acres of Kamloops Indian Reserve No. 1 as described in Lease No. 4512.

A letter on file indicates the Kamloops Indian Band took over Lease 4512 in 1968.

July 9, 1969 The Comptroller of Water Rights issued Conditional Water Licence 34647 to the Superintendent General of Indian Affairs in accordance with an application filed by the same office. This licence was given a date of precedence of December 12, 1968, and authorized the diversion of 2,340 acre feet of water a year from North Thompson River for the irrigation of 780 acres of Kamloops Indian Reserve No. 1, Kamloops Division of Yale District.

Current Status:

There are a total of 171 licences and 4 applications on North Thompson River.

Final Water Licence 11510 (third in priority), Conditional Water Licence 33300 (33rd in priority) and Conditional Water Licence 34647 (42nd in priority) are the only licences on the North Thompson River for the benefit of the Kamloops Band.

Water Survey of Canada has streamflow records for three different gauging stations on the North Thompson River, Station 08LB022, North Thompson River near Barriere, Station 08LB064, North Thompson River at McLure and Station 08LB047, North Thompson River at Birch Island. Station No. 08LB064, North Thompson River at McLure is the nearest gauging station to the reserve with recent streamflow information. This station's records date from 1958 to 1990 and show a low mean monthly flow of 81.2 cubic metres per second in February, increasing to a high in June to 1,360 cubic metres per second.

Notes:

1. The issue of Final Water Licence 11510 in substitution of Conditional Water Licence 9325, resulted in a loss of licensed rights on the North Thompson River for the Kamloops Band.

Paul Creek & Lake

History:

July 27, 1877 Minute of Decision of the Indian Reserve Commission, constituting Kamloops Reserve No. 1:

> *"The prior right of the Indians as the oldest owners or occupiers of the soil to all the water which they require or may require for irrigation and other purposes from St. Pauls Creek* and its sources and northern tributary."*

*Note: It is assumed that St. Pauls Creek is now referred to as Paul Creek

Dec 24, 1920 At a final hearing before the Board of Investigation, acting pursuant to the *Water Act 1914*, the Board determined that:

(i) A valid water Record was issued on the 9th day of December 1869 to Robert Thompson and James Todd authorizing them to divert water from Paul Creek subject to the rights of the Indian possess of using water on the reserve opposite Kamloops.
(ii) All waters of Paul Creek have been used continuously for a beneficial purpose, namely for irrigation, on lands within the boundaries of the said Indian Reservation from the year 1869 until the present time.
(iii) On the 26th day of September 1888 a bona fide application for a record of 500 miner's inches* of water out of Paul Creek for use on the said Indian Reserve was filed in the office of the Dominion Lands Agent and the application defined the quantity of water necessary for the proper irrigation of the lands on the Reserve.
(iv) The said Indian Reserve is not entitled to any right to store water in Paul Lake.

Thus, the claim of the Department of Indian Affairs with respect to the waters of Paul Creek was allowed by the Board. An Order of the Board, numbered 4681, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Paul Creek,
(ii) take precedence from the 8th day of December 1869,
(iii) authorize the diversion of a maximum of 2226 acre feet of water per year for the irrigation of 742 acres of Kamloops Reserve No. 1, provided that 12,000 gallons a day could also be used throughout the year for domestic purpose.

May 7, 1921 The British Columbia Court of Appeal ordered Board Order 4681 set aside and rescinded after hearing an appeal filed by the Western Canadian Ranching Company Limited against the determination of the Order of the Board.

Oct 10, 1922 The Board of Investigation by the Order of the Court of Appeal of British Columbia rescinded the claim of the Department of Indian Affairs to water from Paul Creek with priority as of the 8th day of December, 1869.

The Board of Investigation found that, on the 26th day of September,

---

*Note: The *Water Act, 1914* defined a "miner's inch" as being equal to a flow of .028 cubic feet per second. This rate of flow over a 120 day irrigation season would be 6.665 acre feet for each miner's inch.

1888, a bona fide application for a record of 500 miners' inches of water out of Paul Creek was filed in the office of the Dominion Lands Agent and the application defined the quantity of water necessary for the proper irrigation of the lands on the said Indian Reserve. The Board also determined that the Reserve is not entitled to any right to store water in Paul Lake. The Order of the Board, numbered 7869, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Paul Creek,
(ii) take precedence from the 26th day of September, 1888,
(iii) authorize the diversion of a maximum of 2226 acre feet of water per year for the irrigation of 742 acres of Kamloops Reserve No. 1, provided that 12,000 gallons a day could also be used throughout the year for domestic purpose.

Oct 10, 1922 The Comptroller of Water Rights issued Conditional Water Licence 6467, which embodied the terms and conditions set out in Board Order 7869.

March 7, 1925 The Western Canadian Ranching Company Limited and the Superintendent General of Indian Affairs entered into a permanent agreement for the division and control of the waters of Paul Lake and Creek, subject to the approval of the Comptroller of Water Rights. This agreement set out that:

(i) Western Canadian Ranching Company Limited and the Superintendent General of Indian Affairs would pool their existing water rights on Paul Lake and Paul Creek and divide the water covered by the said water rights equally at a new diversion point to be constructed in Paul Creek at or about the point at which the present diversion of the Ranching Company is situated. This would involve Western Canadian Ranching Company Ltd. transferring 1/2 of their irrigation rights under Conditional Licences 5601, 5840, 5211, 2636, 5600 and 5210 to the irrigable lands on Kamloops Indian Reserve No. 1 and Indian Affairs transferring 1/2 of their irrigation rights under Conditional Water Licence 6467 to the irrigable lands of Western Canadian Ranching Company Ltd., not including Lots 1 and 2 Group 6, Yale-Lytton District.

(ii) Western Canadian Ranching Company Limited's pending application for storage in Paul Lake will be reduced to 1818 acre feet and the pending application of Indian Affairs will be reduced to a similar quantity of 1818 feet and both storage licences will be granted with equal priorities.

(iii) Both parties agree that they will not at any time attack each others licences for not using the water, or for any other reason and that they will so far as possible defend each others licences against the interference of third parties.

(iv) Both parties agree that they will not at any time apply for further water rights on Paul Creek, or the Lake independently of each other. If in the future it is found that further water can be conserved in Paul Lake over and above that covered by the existing licences, Western Canadian Ranching Company Limited and Indian Affairs will apply concurrently for licences to store and use such water and request the Comptroller of Water Rights give such licences equal priority.

(v) Indian Affairs would grant Western Canadian Ranching Company Limited a right-of-way across reserve lands to convey water from Paul Creek.

(vi) Both parties will maintain the dam and other joint works in a constant state of good repair.

Conditional Water Licence 107144 and Final Water Licence 66945, in the name of Harper Ranch Limited, share first priority rights on Paul Creek. There is no recent information on file to indicate the current exercise of rights under Conditional Water Licences 107144 and 32462.

Final Water Licence 19445 is in a pending status until an investigation is completed to determine how the licence is to be apportioned. A memo to file, dated August 29, 1994, reported that the original appurtenancy of the licence has been subdivided and is leased to two different companies, Paul Creek Slicing and Kemp Concrete. Paul Creek Slicing uses 50 to 100 gallons of water a day from Paul Creek.

Notes:

1. The water rights granted under Conditional Water Licence 107144 and Final Water Licence 11759 appear to be consistent with the decision of the Indian Reserve Commission, as both licences share first priority rights on Paul Creek and Paul Lake.
2. Board Order 4681 was to authorize a licence with a priority of December 8, 1869 on Paul Creek. However, due to an appeal this Board Order was rescinded and a new Board Order was issued authorizing the diversion of water from Paul Creek with a later date of precedence of September 26, 1888.
3. The March 7, 1925 agreement between Indian Affairs and Western Canadian Ranching Company is recognized by the Comptroller of Water Rights.
4. The issue of Final Water Licence 11758 in substitution of Conditional Water Licences 9841, 9845 and 9849, resulted in the loss of licensed rights on Paul Creek for the Kamloops Band. However, the Band was consulted with regards to the issue of a lesser quantity of water.
5. Indian Affairs and the Kamloops Band were not consulted with regards to the abandonment of Conditional Water Licences 37905 and 37906 by a lease holder.
6. As Paul Lake is fully recorded except for small domestic supported by storage it may be difficult for the Band to acquire additional water rights on Paul Lake.
7. The Paul Lake dam must maintained and the Band is partially responsible of the upkeep of the dam.

This licence was given a date of precedence of May 17,1955, and authorized the diversion of 0.2 cubic foot of water per second from South Thompson River for industrial (washing sand and gravel) purpose on a leased 1.36 acre parcel of Indian Reserve No. 1, Kamloops, Kamloops Division of Yale District.

July 2, 1964 The Comptroller of Water Rights issued Final Water Licence 18469 to Ace Construction, lessee, in accordance with their application. This licence was given a date of precedence of April 5, 1963 and authorized the diversion of 0.2 cubic foot of water per second from South Thompson River for industrial (washing sand and gravel) purpose on Lots 75 and 76 of Kamloops Industrial Development Subdivision, Kamloops Indian Reserve No. 1, Kamloops Division of Yale District.

Sept 1, 1964 The Comptroller of Water Rights issued Final Water Licence 18533 to Western Sand and Gravel. This licence, issued in substitution of Conditional Water Licence 22715, was given a date of precedence of May 17, 1955 and authorized the diversion of 0.2 cubic foot of water per second from South Thompson River for industrial (washing sand and gravel) purpose on Lot 8 of Kamloops Industrial Development Subdivision, Kamloops, Indian Reserve No. 1.

Aug 2, 1965 The Comptroller of Water Rights issued Conditional Water Licence 30162 to Western Sand and Gravel Ltd, lessee, in accordance with their application. This licence was given a date of precedence of June 4, 1964 and authorized the diversion of 0.25 cubic foot of water per second from South Thompson River for industrial (concrete mixing plant) purpose on Lots 5 and 6, Kamloops Industrial Development Subdivision, Kamloops Indian Reserve No. 1, Kamloops Division of Yale District.

Jan 1, 1967 The Comptroller of Water Rights issued Conditional Water Licence 31754 to the Director, Indian Affairs Branch, in accordance with their application. This licence was given a date of precedence of April 5, 1966, and authorized the diversion of 600 acre feet of water a year from South Thompson River for the irrigation of 200 acres of Indian Reserve No. 1, Kamloops, Kamloops Division of Yale District.

The Director of Indian Affairs had originally applied for the right to divert 900 acre feet of water a year; however, the issue of Conditional Water Licence 31754 authorized a lesser quantity as being sufficient for the area to be irrigated.

Feb 3, 1969 The Comptroller of Water Rights issued Conditional Water Licence 34081 to the Superintendent General of Indian Affairs in accordance with an application filed by the lessee. This licence was given a date of precedence of July 25, 1967, and authorized the diversion of 420 acre feet of water a year from South Thompson River for the irrigation of 140 acres of Parcels Q and S of Kamloops Indian Reserve No. 1, shown on plan deposited with the Department of Indian Affairs, Ottawa, and numbered M 4256.

The lessee had originally applied for the right to use 450 acre feet of water a year; however, a lesser quantity was authorized with the issued of Conditional Water Licence 34081 as being sufficient for the area to be irrigated.

Sept 15, 1969 The Comptroller of Water Rights recorded Final Water Licence 18469 as abandoned in accordance with an abandonment request filed by the current lessee. Neither Indian Affairs or the Kamloops Indian Band were consulted with regards to the abandonment of Final Water Licence 18469.

June 15, 1970 The Comptroller of Water Rights issued Conditional Water Licence 35721 to the Superintendent General of Indian Affairs in accordance with an application filed by B.A. Blacktop Ltd, lessee. This licence was given a date of precedence of March 29, 1968, and authorized the diversion of 0.10 cubic foot of water a year from South Thompson River for industrial (dust control) on Lot 4, Kamloops Industrial Development Subdivision, Kamloops Indian Reserve No. 1, Kamloops Division of Yale District.

Mar 1, 1971 The Comptroller of Water Rights recorded Final Water Licence 18533 and Conditional Water Licence 30162 as abandoned in accordance with an abandonment request filed by the current lessee. Neither Indian Affairs or the Kamloops Indian Band were consulted with regards to the abandonment of Final Water Licence 18533 or Conditional Water Licence 30162.

June 15, 1971 The Comptroller of Water Rights issued Conditional Water Licence 37298 to the Superintendent General of Indian Affairs in accordance with an application filed by George and Margaret Leonard, members of the Kamloops Band. This licence was given a date of precedence of February, 4, 1970, and authorized the diversion of 60,000 gallons of water a day from South Thompson River for industrial (trailer park) purpose on parcels 3 and 6 of Kamloops Indian Reserve No. 1, Kamloops Division of Yale District, Plan M2899 on file with Department of Indian Affairs, Ottawa.

June 16, 1971 The Comptroller of Water Rights recorded Conditional Water Licence 35721 as abandoned in accordance with an abandonment request filed by B.A. Blacktop Ltd. Indian Affairs were notified of the abandonment and had no objections. However, there is no information on file to indicate that the Kamloops Indian Band was consulted with regards to the abandonment of Conditional Water Licence 30162.

Jan 20, 1987 The Regional Water Manager issued Conditional Water Licence 64956 to the Kamloops Indian Band in accordance with their application. This licence was given a date of precedence of November 20, 1984, and authorized the diversion of 7,300,000 gallons of water a year for waterworks purposes, provided the maximum daily diversion does not exceed 20,000 gallons a day and the diversion of 1,230 acre feet of water a year from South Thompson River for the irrigation of 410 acres of Plans 63043 and 64923, C.L.S.R., Ottawa, of Indian Reserve No. 1, Kamloops.

The Band had originally applied for the right to divert 2 million gallons of water a day for waterworks purpose and 4200 acre feet a year for irrigation purpose; however, a lesser quantity was authorized with the issue of Conditional Water Licence 64956 as being sufficient for the amount of homes planned and for the area to be irrigated.

May 20, 1987 Having determined that the period of the year during which the water may be used for waterworks purpose had been erroneously stated in Conditional Water Licence 64956, the Regional Water Manager issued an Order amending the period of year to the whole year instead of from April 1st to September 30th.

Mar 4, 1988 The Deputy Comptroller of Water Rights issued Conditional Water Licence 67555 to Kamloops Indian Band Development Corporation in accordance with their application. This licence was given a date of precedence of June 22, 1981, and authorized the diversion of 400,000 gallons of water a day from South Thompson River for waterworks purpose within I.R. #1 (Kamloops), Kamloops Division of Yale District.

Although the water system authorized under Conditional Water Licence 67555 would be managed by the Kamloops Band, it was determined that rentals would be charged as the water would be supplied to many non-Indians. A recent investigation has been initiated to determine the current portion of residents supplied by the water authorized under Conditional Water Licence 67555 who are Indians and non-Indians. The determination of this investigation may affect future billing.

Current Status:

There are 289 water licences on South Thompson River.

Final Water Licence 11425 (2nd in priority), Final Water Licence 10894 (8th in priority), Conditional Water Licence 31754 (39th in priority), Conditional Water Licence 34081 (46th in priority), Conditional Water Licence 37298 (66th in priority), Conditional Water Licence 67555 (199th in priority), and Conditional Water Licence 64956 (231st in priority) are the seven licences on South Thompson River for the benefit of the Kamloops Indian Band.

All seven licences are controlled by the Band, including Conditional Water Licence 34081, which was originally used by a lease holder; however, the lease has since reverted back to the Kamloops Band.

An Engineer's report for Conditional Water Licence 64956, dated September 19, 1986, indicated that the South Thompson River was a more than adequate source to supply the amount acquired by the application.

Water Survey of Canada has streamflow records from two different gauging stations on South Thompson River, Station 08LE069 (South Thompson River at Monte Creek) and Station 08LE031 (South Thompson River at Chase). The most comprehensive streamflow records are from Station 08LE031, South Thompson River at Chase, which has records from 1911 to 1990. These streamflow records reported a low mean monthly flow of 88.1 cubic metres per second in March, increasing to a high in June to 855 cubic metres per second.

Notes:

1. The issue of Final Water Licence 11425 in substitution of Conditional Water Licence 9274 authorized an increased quantity of licensed water from South Thompson River for the Kamloops Band.

2. Under current licensing practices the domestic purpose authorized under Final Water Licence 11425 would be issued for waterworks purpose. The amendment of this licence would allow for the designation of the South Thompson River drainage area as a Community Watershed under the Forest Practices Code.

3. The issue of Final Water Licence 10894 resulted in the loss of licensed irrigation rights on the South Thompson River for the Kamloops Band.

4. The Kamloops Band was not consulted with respect to the abandonment of Final Water Licences 18533 and 1849 and Conditional Water Licences 30162 and 35721.

5. Conditional Water Licences 31754, 34081 and 64956 authorize lesser quantities of water than what was originally applied for by Indian Affairs for the Kamloops Band.

6. The current portion of Indian and non-Indian use of Conditional Water Licence 64956 has not yet been determined.

Welch Brook

History:

July 27, 1877 Minute of Decision of the Indian Reserve Commission, constituting Kamloops Reserve No. 1:

> *"The prior right of the Indians as the oldest owners or occupiers of the soil to all the water which they require or may require for irrigation and other purposes from St. Pauls Creek* and its sources and northern tributary."*

*Note: Welch Brook is a tributary of Paul Creek.

Dec 1, 1970 The Comptroller of Water Rights issued Conditional Water Licence 36468 to the Superintendent General of Indian Affairs in accordance with their application. This licence was given a date of precedence of June 17, 1969, and authorized the diversion of 1,500 gallons of water a day from Welch Brook for domestic purpose on Kamloops Indian Reserve No. 1, Kamloops Division of Yale District.

Indian Affairs had originally applied for the right to divert 6,000 gallons of water a day for domestic purpose and 200 acre feet of water a year from South Thompson River. However, after investigation it was found that the water was to provide two houses and the applicant did not anticipate irrigating in the foreseeable future. The applicants agreed not to seek irrigation rights under this licence and they would apply in the future if licensed irrigation rights were required. Thus, Conditional Water Licence was issued authorizing a lesser quantity as being sufficient for the applicant.

Current Status:

Conditional Water Licence 36468, in the name of the Kamloops Band, is the only active licence on Welch Brook. There is no information on file with respect to the current exercise of rights under this licence.

Water Survey of Canada has no streamflow records for Welch Brook.

Notes:

1. The allocation made by the Indian Reserve Commission could apply to Welch Brook.
2. The water rights granted under Conditional Water Licence 36468 to the Kamloops Band, appear to be consistent with the decision of the Indian Reserve Commission in that the Band has sole licensed rights on Welch Brook.
3. Conditional Water Licence 36468 authorizes a lesser quantity of water from Welch Brook than what was originally applied for.

OTHER INFORMATION

Additional Water Records

The *Schedule of Indian Reserves in the Dominion*, 1913, is a document published by the federal government, recording each Band's water allocations up to 1913. We believe these records are a compilation of Minute of Decisions, Order-in-Councils, and perhaps other documents; however, as original copies of these documents are unavailable, the dates and information cannot be verified.

Allocations in the *Schedule of Indian Reserves in the Dominion* for the benefit of the Kamloops Band which are inconsistent with our findings are:

Reserve	**Water Allocation**
Kamloops #4	*"50 inches of water recorded from the stream next above the reserve."*
Kamloops #5	*"Fishing Station, Kamloops district, on the banks of Heffley creek, a tributary of the North Thompson."*

The *Schedule of Indian Reserves in the Dominion* also recorded that a temporary reserve for fishing purposes at the west end of Hihium Lake had been granted to the Bonaparte, Nicola and Kamloops Bands. This fishing reserve was subject to cancellation by the Minister of the Interior on one year's notice.

Groundwater Records

Review of records of the Groundwater Section finds evidence of 65 wells on Kamloops Reserve #1. Most of the wells yield small amounts of water ranging from 1 gallon per minute to 150 gallons per minute. Further details are attached to this report. The extent to which these wells are utilized at this time is unknown and as provision of this information is voluntary, it can not be assumed to be complete.

Municipal Water Sources

The proximity of Kamloops Reserve #1 to the City of Kamloops, at the confluence of North and South Thompson Rivers, presents the potential for water supply to the Reserve via a municipal water system. The other Kamloops Reserves, Kamloops #2, #3, #4 and #5, are not near any municipalities; thus there is little potential of these reserves being provided by a municipal water system.

The City of Kamloops obtains their water for irrigation and waterworks purposes from South Thompson River and North Thompson River, although they have the authority to obtain water from various other sources. In 1993 the City of Kamloops experienced a peak daily demand of 29,249,309 gallons a day, well over their authorized maximum daily allowance under their licences, however their annual demand is well within licensed rights.

Water Protection Records

Water Protection Section has record of a dyke along 1.37 kilometres of the South Thompson River along the south boundary of Kamloops Reserve #1. The dyke is maintained by the band.
